

## Company Statement

ODM Electrical Contractors (ODM) specialise in providing the highest standards of electrical services in hazardous areas, industrial and commercial sectors.

Using our extensive industry knowledge and experience we offer well managed install and maintenance programs at a very competitive cost.

Quality, safety and service are the focal points in everything we do. We deliver a personalisation of service with attention to detail, delivering value and cost effective solutions for our clients.

We offer a comprehensive range of installation methods throughout Australia and we pride ourselves on achieving target completion dates within a defined programme. Meeting our clients' needs is our number one priority and we are dedicated to finding the best and most cost effective solution for every client.

We are committed to providing an ongoing service of installation maintenance and energy saving solutions.

Working with ODM you can be confident that your project will not only be delivered on time and within budget but also to the highest of industry standards.

Kind Regards,
